

(Box) INSTALLATION INSTRUCTIONS

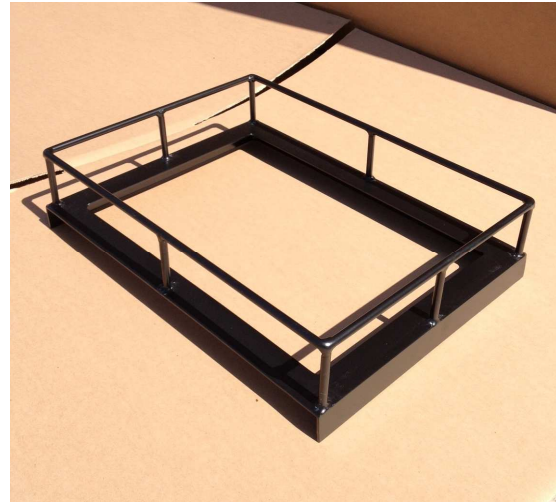

Bolt on Rails

Please read before beginning

- *Stainless steel hardware may bind together when tightening—It is recommended that you apply an anti-seize assembly lubricant to the threads of each bolt before assembly*
- *This installation requires one person*

Required tools

- Standard wrench set
- Leveling tool
- ¼" Drill

Included hardware

Quantity

- | | |
|----------------------------------|---|
| • Mounting hardware | |
| ○ 70011 Hex Head Bolt ¼ -20 x ¾" | 4 |
| ○ 70009 ¼" Washer | 8 |
| ○ 70008 ¼ - 20 Nylock Nut | 4 |

Installation Instructions

1. Place the Bolt on Railing system on top of the box.
2. Using a ¼" Drill, drill 2 holes on each side (and through the top on the front) through the bolt on rail and the box.
3. Use the supplied ¼" bolt, washer, and nylock nut, fasten the bolt on railing to the box.
